DECLARATION

We hereby certify that. the Teachers Training Policy submitted is the true document prepared by the Institution and has been approved in the Governing Body meeting held on March 18. 2021.

FACULTY TRAINING POILCY

Preamble

The Teachers Training Policy of the institute is formulated with the guidelines prescribed by AICTE's Comprehensive Technical Teachers training policy. The policy is designed based on the modern requirements with due consideration of the practical scenario in self-financing Professional Technical institutes. As specified by AICTE the training requirements of the faculty is broadly classified into two sub categories based on the teacher needs.

- Faculty Induction Program to be provided just after joining the institute.
- In-service training program for specific requirements at various levels of the career.

Further a separate training policy for the supporting staff and technical assistants is formulated.

Objectives

- ◆ To recognize the training needs at different levels of career and for various categories of teachers with consideration of present technical education state and the faculty expectation.
- ◆ To propose the training program structure and contents at different levels.
- ◆ To facilitate training through the industry, institutions and government agencies.
- ◆ To provide and monitor the quality of training through appropriate resource persons and resource material.
- ◆ To identify latest trends in technology through Industry Institute Interaction and provide appropriate trainings.
- ◆ To develop healthy, technology oriented academic and research culture in the institute. The training proposes an all-round development of teachers including exposure of teachers to curriculum planning, professional ethics, communication skills, innovation, research and development and institution management.

EXPECTED OUTCOME

It is strongly believed and expected that the Comprehensive Training Program as envisaged in this policy document if properly implemented, will improve the quality of technical education provided by the Institute. The institutional environment, discipline and motivation of students/ teachers will also boost up, thus improving the quality of teaching-learning processes. The grooming in professional skills, values and attitudes will have a profound impact on shaping up the young minds and transforming them into socially responsible technical professionals.

Organization of continuous in-service training programs will help the teachers to keep themselves abreast with the latest developments and also correlate their teaching to the prevailing practice and indigenous development. It will also promote a culture of continuous learning from the seniors and ensure a cohesive teamwork within the department as well as institutions. A major area of student-teacher interaction outside the classroom, which is presently conspicuous by its absence will also develop, enabling proper mentoring, counselling and healthy personality development among the students.
